

3rd Six Weeks

This six weeks we will concentrate on giving to those in need, or completing a math activity. Since this six weeks falls during the holiday seasons, we want you to give to those less fortunate.

Some examples of community service projects are:

Donating to the food pantry, Grace, the Community Storehouse

Picking an Angel off any Angel Tree

Christmas is for Children

PTO Outreach Crafts for Christmas (information coming)

Please write up what you have done and attach a photograph to share with the class.

If you choose not to participate in the community service for this six weeks you will be working on a math activity.

Math Activity: Create a holiday symbol. Create your symbol with 2D and 3D geometric shapes. Please bring in your symbol to share with the class at the end of the six weeks.
