

Honors Medical Terminology Summer Assignment

You must complete ALL 3 assignments listed on this sheet!

1. Quia Quizzes

During the summer there will be 5/6 quizzes that you need to take through the Quia website. Here is my homepage where the quizzes will be listed.

<http://www.quia.com/pages/lowerybiology.html>. Three of the quizzes are noted below but there will be additional ones.

- a. **The History of Medical Terms**
<http://www.quia.com/quiz/1069419.html>
- b. **Medical Terminology Set 1**
<http://www.quia.com/quiz/1052039.html>
- c. **Medical Terminology Set 2 Quiz**
<http://www.quia.com/quiz/1069418.html>

In order to take the quizzes, you will need to email me so that I can set up your username and password. Please do not wait until the last week of summer to start these quizzes! Here is my email: loweryk@cisdmail.com

2. Medications Mobile

The second unit of the course you will learn about the various types of drugs (prescription and over the counter) that can be administered. Start a collection of packaging boxes or empty containers of various types of medications or supplements that you have around the house. You will need at least 10 different containers so you may need to recruit more from outside of your household. Your grandparents may be a good source for some interesting medications too so do not forget about them. Some examples of boxes or containers that you could use:

Tylenol	Acne Medicines
Amoxicillin	Insulin
Echinacea	Lactaide
Ginkgo Biloba	Benadryl
Vitamin C	Breathe Right Nasal Strips
Motrin	Athlete's Foot Cream
Aleve	Immodium
Penicillin	Mylicon Gas Relief
Allergy Medicines	Clear Eyes

3. Scientist for a Day: Due Date: During the 1st 2 Weeks of the Course

Assignment: Have you ever thought that you might want a career in science? If so, now is your chance to find out a little about that dream career. Your assignment is to spend a work day with a person that has a science related job. Pick to visit the career that you think that you will want to pursue. This is an actual investigation of the career, not a **tour** of the facility.

During the workday, you are to keep a journal, complete an interview, and take at least one photo of you with the scientist, as well as other photos to describe your visit. Below is the grading rubric for the assignment. These are the minimum expectations for the project. Feel free to email Mrs. Lowery if you have any further questions.

Guidelines	Points
Photo with the scientist	10
Journal (not the same as the journal in the PowerPoint) Detailed explanation of activities hourly (minimum of 6 hours) Include any thoughts, reflections, and/or questions that you may have about the career	30
Interview 10 question interview that you design	20
Additional Photos 5 pictures (with captions) that chronicle your time spent with the scientist	15
Neatness and organization	10
Originality Unique and unusual profession	5
Creativity of Project Display	10
Total	

"I'm stumped.
We'll have to wait for
the autopsy."
