College Fair

Carroll Senior High School

November 04, 2009

6:00 to 8:00 P.M.

Before you go:

- Make a list of the colleges that interest you.
- Research those colleges and be prepared with specific questions.
- Don't ask questions you can answer from the college's web site. Instead, ask about the course prerequisites for certain majors, campus job opportunities, study abroad requirements and costs, etc.
- Make your own student information labels. Rather than standing at every booth and filling out the same forms, create your own self-stick labels including your contact information (mailing address, telephone), e-mail address, birthday, high school, graduation date, GPA and areas of interest. This will save loads of time.
- Write your student resume or brag sheet and bring several copies.
- Bring a small notebook and pen. You will need to take notes. The buzz at the booths can make it hard to remember which college said what.
- Dress appropriately. Just be neat and recognize that there is no opportunity to make a second first impression.

Once you are there:

- Scout the floor plan and grab a bag to collect materials.
- If you feel the lines are too long to achieve quality "face-to-face" time with college representatives, collect the materials you want and then revisit targeted colleges.
- Introduce yourself, shake hands, ask your questions, and collect business cards.
- Send a thank-you note to any representative with whom you feel you made a special connection.
