

Please remember the following procedures are always in place.
This is just a friendly reminder, since Valentine's Day is right around the corner:

- Because of disruptions during classes, deliveries during school hours are discouraged. Any flowers, candy, balloons, or gifts that are delivered to the school will be held in the front office until after school. Students will receive a message to pick them up after school.
- Parents may only bring lunch for *their* child.
- Due to lunches only being 30 minutes, we discourage taking students off campus for lunch. If you choose to do this, parents may only take *their* child off campus for lunch.
- Candy brought by students may not be consumed during the school day. We will follow our normal procedures and ask students to put it in their lockers, until after school.
- Valentine Candy Grams will be available for students after school, for pick up on Six Flags Avenue. Students will be notified during their Advisory class, to pick up their candy after school.

Your cooperation with these procedures is always appreciated!
