

# IMMUNIZATION RECORDS

Dear Parents,

Due to changes in immunization requirements for the 2009-2010 school year, this would be a good time for you to update your children's records with the schools. If your child has received any immunizations within the last few years, we would appreciate it if you would provide us with a copy, so that we may update this information.

Also, if you are in need of your child's records or are unsure of what you have provided to us, you may access this information on Family Access. You may click on the child's name and then onto Health Information in the left hand column.

If you have any questions or concerns contact Cathy Krieger, Durham Intermediate School, at 817-949-4413.

Thank you for your time in taking care of this,  
Cathy Krieger RN
