

DIS Garden Club

We are so excited to inherit the DES garden areas and make them our own! If you are interested in helping and learning about gardening through a series of fun activities, sign up now! **We will meet the first Monday of the month from 3:40-5. Our first meeting will be OCT 3st. Parent pickup will be by the gardens at 5pm.**

Since we are just beginning, our first activity will involve making a “weeding bucket”. Try to bring a plain bucket that has a lid, We will decorate our bucket and fill it with our hand tools that we need so begin looking for a shovel, trowel and maybe a knee pad for kneeling.

Yes, my child can participate in the garden club the first Monday of the month.
