

Welcome to the Recycling Club ☺

Thanks for volunteering to make our world a better place to live for ourselves and for future generations.

Recycling Club members are expected to:

- *Behave appropriately as you enter each teacher's room. Be polite.
- *Always use good judgment when putting items in the outdoor bin (do not get into the bin under any circumstances!)
- *Use your recycling pass only for recycling duties and on the days designated as free elevator day for the recycling crew.
- *Clean up any spills or other messes that you make.

Our duties include collecting the paper and water bottle recycling from the hallway bins, the library, office and other areas. We roll the large bins outside to the recycling bin. Your child may be lifting bags/boxes of recycling or using the cart to move the bags around. We empty the water bottles, crush them and bag them. We also sponsor the Dragons Lights Out Campaign as well as educate and encourage fellow students and teachers to make wise recycling decisions.

Being in the recycling club is a privilege. We have lots of fun, do an important job and work hard! I look forward to an awesome year!!!

Thanks, Mrs. Sparks
