

Mrs. Buckmaster
5th grade Math & Science

Week of
May 26th

Math

Each student needs a needle, 3-4 different colors of thread and a threader by Tuesday, May 27th. They may bring this in earlier and leave it in the classroom.

No homework packet was given this week.

Some students still need to return their report cards. The envelopes need to be addressed and have postage on them.

Field Day was a great success. All the students seemed to have a good time and enjoy the day.

Science

The students are working on an Ecosystem TicTacToe this week. They will be doing activities about different ecosystems.
