School Press Release

For immediate release, Sept. 8, 2008:

Substance Abuse Curriculum Available Online

Parents of Carroll students involved in extra-curricular activities are required to complete a Substance Abuse Awareness training before their children are eligible to participate in a club, sport or activity. Parents of students in grades 7-12 who were trained last year need not go through the training again. However, parents of new students and all incoming seventh graders have the opportunity to complete the training requirement using an online curriculum.

Visit <http://www.psaas.org> and select the Carroll ISD option to register and create your own parent password. Parents can read through the curriculum before taking an online assessment to complete the course. You must answer 16 of the 20 questions correctly to get credit.

The training is provided at no cost to parents and will provide ongoing parent alerts about important police and school drug awareness information. Parents can take the test as many times as they need to receive a passing rate. Successful completion of the online assessment will automatically qualify the parent as having completed the substance abuse awareness training requirement.

Hard copies of the curriculum and the assessment are also available at each secondary campus in Carroll ISD. The curriculum is provided in English and Spanish versions.

For more information, contact the Communications & Marketing Department at 817-949-7080.
