INTRODUCTORY **SECTION**

December 14, 2020

To the Board of Trustees and the Citizens of Carroll Independent School District:

The Texas Education Code requires that all school districts file financial statements with the Texas Education Agency (TEA) within 150 days of the close of the fiscal year. The financial statements must be presented in conformity with the generally accepted accounting principles (GAAP) and audited by a firm of licensed certified public accounts in accordance with generally accepted auditing standards. Pursuant to the requirement, we submit the Comprehensive Annual Financial Report (CAFR) of the Carroll Independent School District (the District) for the fiscal year ended August 31, 2020.

Responsibility for the accuracy, completeness, and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed information is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial operations have been included.

The CAFR is presented in four sections: (1) introductory, (2) financial, (3) statistical, and (4) federal awards. The introductory section includes this transmittal letter, the Certificate of Board, a listing of the District's principal officials and advisors, and an organizational chart of the District. The financial section includes the basic financial statements, the required supplementary information, combining and individual fund statements and schedules, and other supplementary information. Also included in the financial section is the independent auditors' report on the financial statements and Management's Discussion and Analysis (MD&A). The statistical section consists of unaudited tables which reflect both financial and demographic data. This information is for the purpose of presenting social and economic information, financial trends and fiscal capacity of the District, and is generally presented on a multi-year basis. The federal awards section includes the Single Audit report which is in conformity with the provisions of the Single Audit Act of 1996 and the United States Office of Management and Budget Uniform Guidance.

This report includes all funds of the District. The District is a public school system offering a full prekindergarten through twelfth grade education for all school age residents within its geographic boundaries. The CAFR also includes any activities over which the Board has oversight responsibilities and/or the authority to make decisions. The District is not a component unit nor does it have any component units. A component unit is a legally separate organization that a primary government must include as part of its financial reporting entity for fair presentation in conformity with GAAP.

Creating an environment that fosters excellence...

√ Excellence √ Relationships √ Character & Integrity √ Innovation √ Open & Honest Communication √ Compassionate Service

Governing Body

The District is governed by a seven-member Board of Trustees (Board) serving staggered three-year terms with elections held in May of each year. All candidates must be qualified voters and residents within the boundaries of the District. Board officers are elected by the members of the Board.

Regular meetings are scheduled for the first and third Monday of the month and are held at the Carroll ISD Administration Center. Special called meetings and workshops are scheduled as needed and announced to the public in compliance with public notice requirements.

The Board has final control over all school matters except as limited by state law, the courts, and the will of its citizens as expressed in elections. In general, the Board is responsible for adopting policy, employing and evaluating the Superintendent, adopting an annual budget and its supporting tax rate, and serving as a board of appeals in personnel and student matters.

General Information

In 1919 the Carroll Common School District was formed from independent schools near Lonesome Dove and White's Church as well as Sam's School. The District was named after B. E. Carroll, Tarrant County Superintendent of Public Instruction. The first school building was known as Carroll High School and was opened in 1919, being used continuously until the opening of the new Carroll High School in 1970-1971. In 1959, the Carroll Common School District officially became an Independent School District. Originally Carroll ISD only offered grades K-8th grade, with students having to attend Grapevine High School for grades 9-12. Then in 1961-1962, the grades were expanded to serve K-12th, with the first graduating class of Carroll High School being in 1965.

The District is located in northeast Tarrant County and encompasses approximately 21 square miles. The District serves students in Southlake, Colleyville, Grapevine, Keller, Trophy Club and Westlake. The District is one of the largest in the state of Texas to earn the top rating of "Exemplary" by the Texas Education Agency.

The District finished the year with an enrollment of 8,525 students. Enrollment has increased by 9% over the past ten years and annual growth is expected in the foreseeable future. Enrollment of 8,938 is projected by 2028-29.

	19-20	18-19	17-18	16-17	15-16
Enrollment	8,525	8,344	8,366	8,190	8,056

The District is comprised of the following eleven (11) campuses:

Carroll Senior High School	Grades	11-12
Carroll High School	Grades	9-10
Carroll Middle School	Grades	7-8
Dawson Middle School	Grades	7-8
Durham Intermediate School	Grades	5-6
Eubanks Intermediate School	Grades	5-6
Carroll Elementary School	Grades	Pk-4
Johnson Elementary School	Grades	K-4
Old Union Elementary School	Grades	Pk-4
Rockenbaugh Elementary School	Grades	Pk-4

Five schools have been named National Blue Ribbon Schools by the U.S. Department of Education. The Blue Ribbon Schools include Rockenbaugh Elementary, Johnson Elementary, Carroll Elementary, Carroll Middle School and Carroll Senior High School.

Approximately 98 percent of Carroll's seniors go on to attend a college or university after graduation. More than 90 percent of Carroll students take a college entrance exam, with composite scores on the SAT and ACT that exceed state and national averages. Carroll offers a full array of Advanced Placement and Honors courses, a challenging curriculum for gifted and talented students and special programs for students with special needs. The District does not have a relationship with any charter schools.

Each campus shares the same district mascot the Dragon superimposed on an outline of the state of Texas, in the same colors, green, white and black. The current logo was developed in 1984 and has been in use since that time. The original inspiration of the mascot was derived by combining an outline of Texas with a United States Navy fighter squadron emblem.

Economic Condition and Outlook

The Southlake area was settled in the 1840s but was not incorporated as Southlake until 1956. The area remained rural until the completion of the nearby DFW International Airport in the 1970s. Due to the close proximity to the airport, Southlake became a boom-burb throughout the 1980s, 1990s and 2000s. The current population projection for Southlake is 30,840 with a projected build-out population of 34,188. Southlake has been recognized as one of the most desirable cities in which to live and work due to a highly successful combination of business, local government, school district, and the overall quality of life. The largest employers in the Southlake area include Sabre Holdings, TD Ameritrade, the District, Keller Williams, Verizon Wireless, Gateway Church, the City of Southlake, Central Market, Hilton Southlake, and the Methodist Hospital.

The District's latest demographic study reports the following unemployment numbers as of October 2020:

United States	6.9%
Texas	6.9%
Dallas/Fort Worth	6.1%

Southlake 4.4%

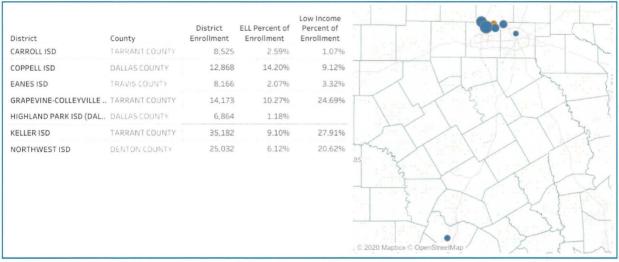

The District had 566 home sales between January – December 2019. The average sale price of a new home was \$876,023. The average sale price of an existing home was \$769,528.

Property values have increased an average of 7% over the past five years, and the District's tax base has been increasing due to new residential construction accompanied by growth in retail and commercial development. The District's total assessed property value for the year was \$9,931742,170 with residential property accounting for almost 76% of the value. The net taxable value after exemptions was \$8,895,523,720 which was an increase of .26% from the prior year. The average taxable value of a home in the District was \$706,223, which was an increase of 1.68% from the prior year.

CARROLL ISD Economic Profile

Financial benchmarking allows districts to analyze their condition, comparing their data to defined metrics to inform decision makers.

Long Range Planning

In 2014, the District appointed a Strategic Planning Committee comprised of a cross section of parents, employees, administrators and community/business leaders with varying backgrounds, experiences and expertise. The committee updated the district's mission, vision, and core values, adding belief statements and creating 11 strategic objectives.

The District's mission is "Building on a Dragon tradition of excellence, the Carroll Independent School District will foster a safe, caring, and creative learning environment that inspires students to realize their full potential as they positively impact the world around them". The mission and the District's core values of excellence, relationships, character & integrity, innovation, open & honest communication, and compassionate service help shape the decisions that are made on a daily basis. The District's employees continue to work on making progress on the 11 strategic objectives of the five-year Strategic Plan. Periodic updates are provided to help ensure alignment with the District Improvement Plan and individual Campus Improvement Plans.

The District formed a Capital Needs Planning Committee (CNPC) to serve in an advisory capacity to the Board and Administration on a temporary basis regarding the topic of short-term and long-term capital needs planning. The committee was comprised of approximately 40 citizens and employees representing each of the school attendance zones. The committee spent most of the 2015-2016 school year studying capital needs and building use, safety and security, technology and instructional needs, extra-curricular facilities, and maintenance and transportation needs. The committee made a recommendation to the Board on June 6, 2016 that led to the bond election that was held in May 2017. Following is a summary of the recommendation:

Building Use/Capital Improvements (\$18 million)

- Elementary classroom additions
- Core spaces and front office expansions
- ADA compliance projects
- Language labs and robotics
- Canopies over student walkways

Technology/Instructional Programming (\$45 million)

- Infrastructure (phones, bell system, wireless, servers, switches, etc.)
- Classroom presentation resources
- 21st Century collaborative spaces
- Student devices (combination of laptops and iPads, etc.)

Maintenance, Transportation, Safety & Security (\$104 million)

- General maintenance (flooring, ceiling tiles, paint, roofs)
- Site work (paving, sidewalks, parking lots, driveways)
- Mechanical, electrical and plumbing (MEP) projects
- School buses and maintenance vehicles
- Surveillance cameras and keyless entry systems

Extra-curricular/Co-curricular (\$41 million)

- Music facility at CSHS for band/choir
- Renovations for STEM, theatre, language labs, journalism, etc.
- Artificial field turf on competition/practice fields
- Band instruments and uniforms
- Aquatics Center and Dragon Stadium renovations

On May 6, 2017, Carroll ISD voters overwhelming passed the \$208 million bond that will provide funding for construction projects at every Carroll ISD campus and support facility over the next three to five years. Work to complete the 2017 Bond Program will be under the guidance and oversight of a Bond Advisory Committee and the Board of Trustees.

Financial Information

The District strives to provide support for all stakeholders, ensuring that all financial operations support the District's instructional goals and objectives thereby providing our students with the best education possible. The District is committed to providing fiscal management through prudent stewardship, integrity and financial transparency. In 2014, the District was awarded the Texas Comptroller Leadership Circle Platinum Award for Financial Transparency. Since that time, the Texas Comptroller has initiated a greater level of accountability and has recognized the District for going above and beyond in their transparency efforts in the areas of Traditional Finance and Debt Obligations.

In September 2016, Moody's upgraded the District's previous general obligation bond rating from Aa2 to Aa1. The rating upgrade primarily reflected the District's trend of tax base growth, affluent residential community, enrollment growth and healthy reserves. The stable outlook reflects the expectation of stable credit fundamentals supported by the District's economy which will remain strong given its location in the Dallas-Fort Worth Metroplex and management's history of maintaining healthy reserves.

In January 2019, S&P affirmed its AA+ underlying rating and long-term rating on the District's existing general obligation debt. The outlook on all the ratings is stable. The underlying rating reflects their assessment of the District's creditworthiness, specifically its expanding property tax base, coupled with access to and participation in the broad and diverse Dallas-Fort Worth Metroplex, very strong income and extremely strong wealth indicators, and historically strong financial position, supporting the maintenance of very strong reserves.

Internal Control

The District's management is responsible for establishing and maintaining internal controls that are designed to ensure that the assets of the District are protected from loss, theft, and misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The cost of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of the cost and benefits requires estimates and judgments by management. Management believes the internal controls adequately meet the above objectives.

Budgetary Control

State law requires that every local education agency prepare and file an annual budget of anticipated revenues and expenditures with the Texas Education Agency. The objective of budgetary controls is to ensure compliance with the legal provisions in the annual budget approved by the Board. Activities in the General Fund and Debt Service Fund are included in the official budget. Budgetary control, the level at which expenditures cannot legally exceed appropriations, is maintained at the functional category level within each fund. These functional categories are defined by the Texas Education Agency and identify the purpose of the transaction. The budget may be amended during the year to address unanticipated or changing needs of the District. A change to functional expenditure categories, revenue objects, or other sources and uses accounts requires the approval of the Board.

The annual budget is the foundation for the District's financial planning and control. The budget process begins in January of each year. All budget managers of the District are required to submit their requests to the Financial Services Department. The requests are compiled and summarized into a preliminary budget which is presented and discussed with the Board at one or more public budget workshops. Prior to the end of August, a board meeting is called for the purpose of discussing and adopting the budget and the proposed tax rate. The budget must be adopted prior to the beginning of the fiscal year on September 1st.

It is the intent of the District that the budgetary process provides the financial resources that are needed to meet the educational goals and objectives of the District. The ultimate decision of the level of funding and the programs to be funded rests with the Board. After considering all factors, the Board sets an ad valorem tax rate that will generate sufficient revenues to support the expenditure budget of the District. The tax rates per \$100 of assessed value for the past five years are shown on the following table.

	19-20	18-19	17-18	16-17	15-16
M&O	\$0.9700	\$1.0400	\$1.0400	\$1.0400	\$1.0400
I&S	\$0.3300	\$0.3400	\$0.3450	\$0.3500	\$0.3550
	\$1.3000	\$1.3800	\$1.3850	\$1.3900	\$1.3950

The District also utilizes an encumbrance accounting system to maintain budgetary control. Outstanding encumbrances at the end of a fiscal year lapse at year-end and are treated as expenditures in the subsequent year upon receipt of goods.

The cost of operating schools and the revenues to cover these costs are accounted for through the General Fund. Special programs, primarily funded by the state or federal government and designed to accomplish a defined objective, are accounted for in the Special Revenue Funds. The District allocates a portion of its tax rate for the payment of bond principal and interest and accounts for these transactions in the Debt Service Fund. The District accounts for school construction that is financed through the sale of bonds in the Capital Projects Fund. The District also maintains Trust and Agency Funds which account for private purpose trusts as well as agency funds for student activity and other granting organization.

Fund Balance

The total General Fund balance is an integral part of the subsequent year's budget adoption and tax rate setting process. The Board has been proactive in building the District's fund balances over time striving to maintain at least three months operating expenditures in the unassigned General Fund balance. The General Fund balance at the end of August 31, 2020 was \$43,039,066 which was an increase of \$2,843,679 from the prior year.

(1) 2020-08 is a projection - the external auditor's data is the end of year fund balance

Cash Management

In accordance with the District's investment strategy, it is the District's practice to maintain a cash management program that invests financial resources in a manner that provides primarily for the safety of principal and secondarily to achieve favorable rates of return. The program is sustained by providing a sufficient level of liquidity to support the daily cash flow needs of the District without subjecting the District to material, unfavorable market conditions and interest rate risk.

The District invests in U.S. Treasury and Agency securities as well as Certificates of Deposit. The District also participates in local government investment pools including Lone Star, Texas Class, and Texas Term. Government pools provide for liquidity, competitive markets return, and additional diversification of the investment portfolio. The graph below shows the number of days' cash on hand and current investment in the general fund for the school district was sufficient to cover operating expenditures (excluding facilities acquisition and construction).

Independent Audit

State law and District policy requires an annual audit of the District's financial statements by independent certified public accountants. The annual audit was performed by Snow Garrett Williams for the year ended August 31, 2020. In addition to meeting the requirements set forth in state statutes, the audit is designed to also meet the requirements of the Government Auditing Standards issued by the Comptroller General of the United States and the Uniform Guidance. The independent auditors' report on the basic financial statements and the combining and individual fund statements and other supplemental schedules are included in the financial section of this report.

2019-2020 Achievements

As reflected in the District's mission statement, activities of the District focus on a creative learning environment that inspires students to realize their full potential as they positively impact the world around them. The following reflects the degree of success that both the District and its students have accomplished in academics, extra and co-curricular activities for the 2019-2020 fiscal year:

• Carroll ISD earned an overall A+ grade and named the 2nd best school district in Texas and the #1 school district in the Dallas-Fort Worth area by Niche.com.

- Carroll ISD had 21 students named as a National Merit Semifinalist. 49 students were named National Merit Commended Students, and 14 were named National Hispanic Scholars.
- 247 Carroll ISD students were named Advanced Placement Scholars and 94 of them were named National AP Scholars for scoring a 4 or higher on eight or more AP exams.
- Carroll ISD had a composite average ACT score of 27.7, surpassing both the state average of 20.6 and the national average of 20.6.
- Carroll ISD had a composite average SAT score of 1294, exceeding both the state average of 1027 and the national average of 1059.
- The graduating class of 2020 earned over \$20.6 million in scholarships and completed almost 66,655 hours of community service in four years.
- Carroll ISD had 23 student athletes participate in National Signing Day, earning scholarships to further their academic and athletic careers.
- The Carroll Robotics 5 teams who won state and qualified for the World Championship which was cancelled because of COVID 19.
- The Carroll debate team had 10 UIL state winners.
- The Dragon Yearbook staff were the recipients of the highest awards given to a yearbook. The staff received the Columbia Scholastic Press Association Gold Medalist Award as well as the National Scholastic Press Association's All American Award.
- The Business Professionals of America (BPA) qualified 43 students for the State Leadership Conference with 4 students advancing to the National competition.

Awards

Carroll Independent School District received a Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association (GFOA) for its CAFR for the fiscal year ended August 31, 2019. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. A Certificate of Achievement is valid for a period of one year only. We believe that this current report will conform to the Certificate of Achievement Program requirements and is being submitted to the GFOA for review.

The District also received the Association of School Business Officials' (ASBO) Certificate of Excellence in Financial Reporting for the fiscal year ended August 31, 2019. This award certifies that the CAFR substantially confirms to the principles and standards of reporting as recommended and adopted by ASBO. The award is granted only after an intensive review of financial reports by an expert panel of certified public accountants and practicing school business officials. We believe that our current report will also meet the Certificate of Excellence Program requirements and will be submitted to ASBO for review.

The District scored the highest possible rating of "Superior" for the School FIRST (Financial Integrity Rating System of Texas), a financial accountability system for Texas school districts. The primary goal of the FIRST rating is to ensure quality performance in the management of a school district's financial resources, a goal made more significant due to the complexity of accounting associated with the Texas school finance system. Since the inception of the rating system in 2002-2003, the District has maintained the highest level of rating.

Acknowledgments

The preparation of this report could not have been accomplished without the dedication of the Financial Services Department staff and the staff of Snow Garrett Williams. We would like to extend sincere

appreciation for their time and efforts. We would also like to thank the Board of Trustees for their support in ensuring fiscal transparency to the citizens of the District and for its leadership of one of the highest ranked school districts in Texas. We also want to thank the teachers, principals, administrators, and support staff who have worked so hard to foster a safe, caring, and creative learning environment that inspires students to realize their full potential as they positively impact the world around them.

Respectfully submitted,

Laurie Grissom, RTSBA Executive Director of Finance

William Wooten, RTSBA, SFO Assistant Superintendent for Financial Services

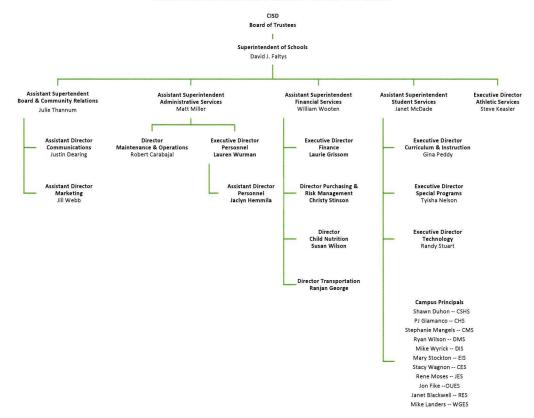

David J. Faltys, Ed.D. Superintendent

The District's organizational hierarchy begins with the seven Board of Trustee members and Superintendent. The Superintendent is responsible for the day to day operations and operations of the District. The Superintendent's Cabinet consists of four Assistant Superintendents; Board and Community Relations, Administrative Services, Financial Services and Student Services.

The purpose of this structure is to support student instruction as it occurs on each campus. Campus leadership reports directly to the Assistant Superintendent for Student Services.

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Carroll Independent School District ("the District") as of and for the year ended August 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Carroll Independent School District as of August 31, 2020, and the respective changes in financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, schedule of the District's proportionate share of the net pension liability, schedule of District pension contributions, schedule of the District's proportionate share of the net OPEB liability, and schedule of District OPEB contributions identified as Required Supplementary Information in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Carroll Independent School District's basic financial statements. The introductory section, combining financial statements, and statistical section are presented for purposes of additional analysis and are not required parts of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements. The accompanying other supplementary information is presented for purposes of additional analysis and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and other supplementary information, except for Exhibit J-2, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, other supplementary information, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory, statistical sections, and Exhibit J-2 have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2020 on our consideration of Carroll Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to proivide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Carroll Independent School District's internal control over financial reporting and compliance.

Respectfully submitted,

Snow Garrett Williams December 9, 2020

Management's Discussion and Analysis

(Unaudited)

As management of the District, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the year ended August 31, 2020. We encourage readers to consider the information presented here in conjunction with the District's financial statements, which follow this section.

Financial Highlights

- The assets and deferred outflows of the District exceeded its liabilities and deferred inflows at the close of the most recent period by \$24,088,832 (net position). Of this amount, negative \$7,952,470 is unrestricted net position.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$109,670,370. Approximately 30% of this total amount, \$32,201,905, is available for spending at the government's discretion (unassigned fund balance).
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$32,201,905, or 28% of the total general fund expenditures.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets, liabilities, and deferred outflows and inflows of resources. Net position is equal to assets plus deferred outflows of resources less liabilities and deferred inflows of resources. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information for all of the current year's revenues and expenses regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the District's government-wide financial statements distinguish the functions of the District as being principally supported by taxes and intergovernmental revenues (*governmental activities*) as opposed to *business-type activities* that are intended to recover all or a significant portion of their costs through user fees and charges. The District has no component units for which it is financially accountable. The government-wide financial statements can be found on pages 12-13 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. The fund financial statements provide more detailed information about the District's most significant funds-not the District as a whole.

- Some funds are required by State law and/or bond covenants.
- Other funds may be established by the Board to control and manage money for particular purposes or to show that it is properly using certain taxes or grants.

All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

- Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. The District adopts an annual appropriated budget for its general fund and debt service fund. A budgetary comparison schedule has been provided to demonstrate compliance with these budgets. The basic governmental fund financial statements can be found on pages 14-19 of this report.
- **Fiduciary funds**. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the District's own programs. The District is the trustee, or *fiduciary*, for these funds and is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position that can be found on pages 20-21.

Notes to the financial statements. The notes provide additional information that is essential to a complete understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 22-49 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* that further explains and supports the information in the financial statements. Required supplementary information can be found on pages 50-56 of this report.

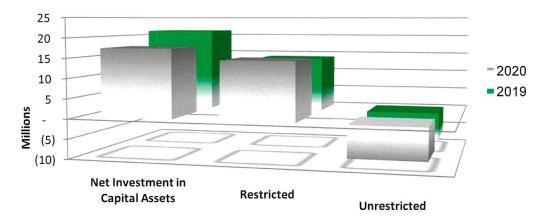

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, governmental type assets and deferred outflows of resources exceeded liabilities deferred inflows of resources by \$24,088,832 as of August 31, 2020.

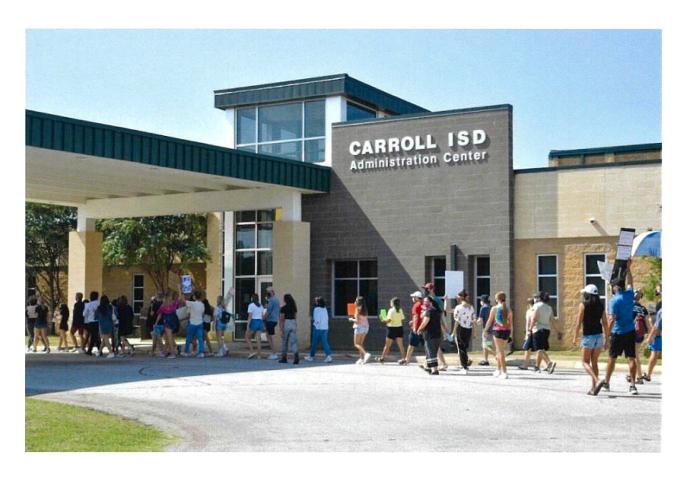

The District's Net Position-Governmental Activities

	August 31, 2020	August 31, 2019	
Current assets	\$ 124,306,552	\$ 124,994,703	
Capital assets	326,403,695	286,019,294	
Long-term investments	5,875,000	5,335,000	
Total assets	456,585,247	416,348,997	
Deferred outflows of resources:			
Deferred outflows related to pensions	13,010,813	14,501,804	
Deferred outflows related to OPEB	5,834,393	4,555,209	
Total deferred outflows	18,845,206	19,057,013	
Current liabilities	23,403,915	22,778,338	
Long-term liabilities outstanding	410,332,259	372,366,302	
Total liabilities	433,736,174	395,144,640	
Deferred inflows of resources:			
Deferred gain on refunding	796,499	876,149	
Deferred inflows related to pensions	4,149,212	1,422,340	
Deferred inflows related to OPEB	12,659,736	9,607,549	
Total deferred inflows	17,605,447	11,906,038	
Net position			
Net Investment in capital assets	17,343,936	21,246,744	
Restricted	14,697,366	13,846,455	
Unrestricted	(7,952,470)	(6,737,867)	
Total net position	\$ 24,088,832	\$ 28,355,332	

Net Position as of 8/31/20

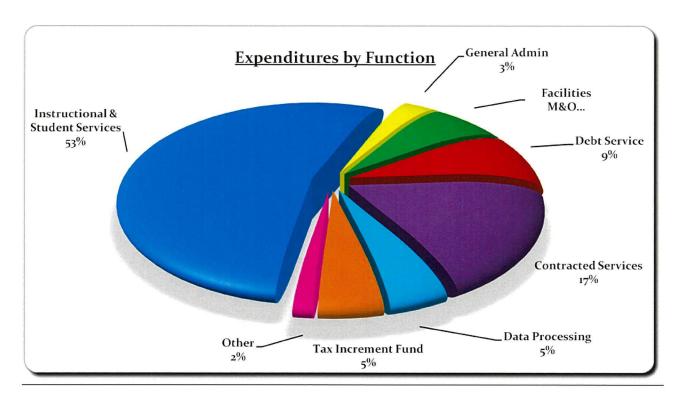

Net investment in capital assets (e.g., land, buildings, furniture and equipment, and construction in progress) is \$17,343,936. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District's net position, \$14,697,366, represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position*, negative \$7,952,470, may be used to meet the District's ongoing obligations. This deficit is not an indication that the District has insignificant resources available to meet financial obligations next year, but rather the result of having long-term commitments that are in excess of currently available resources.

Governmental activities. The District's total net position decreased \$2,524,850. The decrease is due to restructuring staffing to increase additional instruction to enhance learning opportunities during the COVID-19 crisis. The total cost of all *governmental activities* this year was \$164,075,167. The amount that our taxpayers paid for these activities through property taxes was \$122,323,920 or 75%.

Changes in the District's Net Position

	Fiscal Year August 31, 2020	Fiscal Year August 31, 2019
Revenues:		
Program revenues		
Charges for services	\$ 5,986,164	\$ 7,440,316
Operating grants and contributions	13,993,569	11,071,468

Ending net position	\$ 24,088,832	\$ 28,355,332

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements, bond covenants, and segregation for particular purposes.

Governmental funds. The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of the District's net resources available for spending at the end of a fiscal year. As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$109,670,370, an increase of \$2,140,207. Approximately 30% of this total amount, \$32,201,905, constitutes *unassigned fund balance*. The remainder of fund balance is *restricted*, *committed*, or *assigned* to indicate that it is not available for new spending because it is (1) considered non-spendable for inventory (\$263,436) and has already been restricted to pay (2) debt service (\$8,605,759), (3) capital acquisitions (\$50,339,659), (4) other restrictions for sinking fund deposits (\$5,875,000); and committed for (5) other committed balances (\$12,384,611).

The general fund is the primary operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$32,201,905, out of a total fund balance of \$43,039,066. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to the total fund expenditures. Unassigned fund balance represents 28% of the total general fund expenditures. Total fund balance represents 37% of the total general fund expenditures.

The fund balance of the District's general fund increased \$2,843,679 during the current fiscal year. Key factors in this increase include:

Decrease in recapture expenditures.

The debt service fund has a total fund balance of \$14,480,759, of which \$8,605,759 is restricted for the payment of debt service and \$5,875,000 is restricted for sinking fund deposits. The net increase in fund balance during the period in the debt service was \$839,754. The key factor in the increase was:

Due to higher tax collections in 2019-2020

The capital projects fund has a total fund balance of \$50,339,659 all of which is restricted for capital acquisitions. The net decrease in fund balance during the period in the capital projects fund was \$1,715,024, which was the net effect of issuing the Series 2019 Building and Refunding Bonds and various capital projects expenditures.

General Fund Budgetary Highlights

Over the course of the year, the District recommended and the Board approved several revisions to budgeted revenue and appropriations. These amendments were due to allow for unexpected occurrences and to better reflect the activities of the District. The revised budgeted revenue was primarily due to:

- Miscellaneous general donation
- State Personal Protective Equipment Funding

The following are significant variations between the final budget and actual amounts for the general fund:

- Actual revenues were higher than budgeted by \$2,197,772, primarily related to increases in state program revenues: and
- Actual expenditures were lower than budgeted by \$4,047,961, primarily due to budgeting variances within
 instruction, food services, and contracted instructional services between public schools.

Capital Asset and Debt Administration

Capital assets. The District's investment in capital assets for its governmental activities as of August 31, 2020, amounts to \$326,403,695 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, furniture and equipment, vehicles, and construction in progress.

Major capital asset events during the year included the purchase of 15 new passenger buses added to the District's fleet, upgrades to the District's server/network, renovations and additions to campus buildings, and continued construction on bond projects.

Districts Capital Assets (net of depreciation)

	August 31, 2020		August 31, 2019	
Land	\$	14,489,203	\$	14,489,203
Buildings and improvements		201,002,609		191,886,655
Furniture and equipment		9,674,533		11,078,064
Vehicles		6,036,110		5,065,773
Construction in progress		95,201,240		63,499,599
Total at historical cost	\$	326,403,695	\$	286,019,294

Additional information on the District's capital assets can be found in Note C on page 32 of this report.

Long-term debt. As of August 31, 2020, the District had total general obligation bonded debt outstanding of \$346,705,002, an increase of \$40,027,837 over the prior year. The District issued Tax School Building and Refunding Bonds, Series 2019A during fiscal year 2020 at a par amount of \$58,120,000, and a premium of \$3,386,918. The refunding portion of the bonds refunded certain maturities of the Tax School Refunding Bonds, Series 2011 (\$2,200,000 par and \$90,462 unamortized premium).

The unamortized premium balance at August 31, 2020 was \$11,897,918, an increase from the prior year of \$2,623,999. Accumulated accretion on CABs decreased \$67,340, which resulted in eliminating this debt. The net pension liability for fiscal year 2020 had an ending balance of \$25,466,044, a decrease of \$499,742 from the prior year. Finally, the net OPEB liability for fiscal year 2020 had an ending balance of \$29,263,296, a decrease of \$1,118,796 from the prior year.

The District's bonds are rated "AAA" by virtue of the guarantee of the Permanent School Fund of the State of Texas. The district's underlying rating on outstanding bonds is "AA+" by Standard and Poor's and "Aa1" by Moody's.

The "AAA" long-term rating on the District's Texas' bonds reflects the Texas Permanent School Fund guarantee. The "AA+" Standard &

Poor's underlying rating on the District's unenhanced debt reflects the District's: (1) participation in the strong and growing Dallas/Fort Worth area economy, (2) strong administrative management, and (3) continued satisfactory financial performance.

State statutes limit the amount of general obligation debt a government entity may issue up to 10% of its total assessed valuation. The current debt limitation for the District is \$938,644,646, which is significantly in excess of the District's outstanding general obligation debt.

Additional information on the District's long-term debt can be found in Note F on pages 33-35 of this report.

Economic Factors and Next Year's Budgets and Rates

- The District's student attendance rate remains stable at the 97.6 percent level.
- The District's enrollment increased by approximately 159 students in 2019-2020. Enrollment for 2020-2021 is expected to increase by 110 students.
- The District's taxable valuation increase by 2.08%.
- The District has appropriated revenues and expenditures in the 2020-2021 budgets of \$_120,228,230 and \$124,480,709 respectively in its general fund. This deficit of \$4,252,479 should be offset by payroll savings as a result of vacancies and property tax revenue greater than what was anticipated at the time the budget was approved.
- The COVID-19 pandemic has developed rapidly in 2020. In light of changing trends and the adjustment to the overall outlook, the District expects COVID-19 to have the following financial impacts:
 - Increase in Substitute Payroll Cost _
 - · Purchase of PPE equipment
 - Increase in Technology Cost
 - Increase in Professional Development

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances as well as demonstrate accountability for funds the District receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Carroll ISD Business Office, 2400 North Carroll Avenue, Southlake, TX 76092.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION AUGUST 31, 2020

Total fund balances - governmental funds balance sheet

\$ 109,670,370

Amounts reported for governmental activities in the Statement of Net Position ("SNP") are different because:

Property taxes receivable unavailable to pay for current period expenditures are deferred in the funds.	858,851
Capital assets used in governmental activities are not reported in the funds.	326,403,695
Deferred Resource Outflows related to the pension plan are not reported in the funds.	13,010,813
Deferred Resource Outflows related to the OPEB plan are not reported in the funds.	5,834,393
Recognition of the District's proportionate share of the net pension liability is not reported in the funds.	(25,466,044)
Recognition of the District's proportionate share of the net OPEB liability is not reported in the funds.	(29,263,296)
Deferred Resource Inflows related to the pension plan are not reported in the funds.	(4,149,212)
Deferred Resource Inflows related to the OPEB plan are not reported in the funds.	(12,659,736)
Payables for bond principal which are not due in the current period are not reported in the funds.	(346,705,001)
Payables for bond interest which are not due in the current period are not reported in the funds.	(751,584)
Premiums on bonds which are not due and payable in the current period are not reported in the funds.	(11,897,918)
Deferred gain on refunding bonds is not reported in the funds.	(796,499)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED AUGUST 31, 2020

Net change in fund balances - total governmental funds 2,140,207 Amounts reported for governmental activities in the Statement of Activities ("SOA") are different because: Certain property tax revenues are deferred in the funds. This is the change in these amounts this year. 34.372 Capital outlays are not reported as expenses in the SOA. 55,561,925 The depreciation of capital assets used in governmental activities is not reported in the funds. (13,433,958)The gain or loss on the sale of capital assets is not reported in the funds. 111,148 All proceeds from the sale of capital assets are reported in the funds but not in the SOA. (113,065)GASB 68 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These pension contributions made after the measurement date of the plan increased ending net position. 1,814,304 Pension contributions made before the measurement date and during the previous fiscal year were expended and recorded as a reduction to NPL. (1,661,311)The proportionate share of the TRS pension expense on the plan as a whole had to be recorded. The net pension expense decreased net position. (3,871,114)GASB 75 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These OPEB contributions made after the measurement date of the plan increased net position. 456,491 OPEB contributions made before the measurement date and during the previous fiscal year were expended and recorded as a reduction in the net OPEB liability. (439.169)The proportionate share of the TRS-Care expense on the plan as a whole had to be recorded. The net OPEB expense decreased net position. (671.529)Proceeds of bonds do not provide revenue in the SOA but are reported as other financing sources in the funds (58.120.000)Bond premiums on issuance are reported in the funds but not in the SOA. (3,386,918)Payment to escrow agent for refunding bonds is reported in the funds but not in the SOA 2,244,494 Repayment of bond principal is an expenditure in the funds but is not an expense in the SOA. 15,892,164 (Increase) decrease in accrued interest from beginning of period to end of period. 51,693 The accretion of interest on capital appreciation bonds is not reported in the funds. 67,340 Interest paid in defeasance of bonds payable is reported in the SOA but not in the funds. 45,969 Deferred gain on refunding bonds is amortized in the SOA but not in the funds. 79,650 Premiums on bonds are amortized in the SOA but not in the funds. 672,457 Change in net position of governmental activities - Statement of Activities (2,524,850)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

A. Summary of Significant Accounting Policies

The basic financial statements of Carroll Independent School District (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") applicable to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide ("Resource Guide"). The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

1. Reporting Entity

The Board of School Trustees ("Board"), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency ("TEA") or to the State Board of Education are reserved for the Board, and the TEA may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District receives funding from local, state and federal government sources and must comply with the requirements of those funding entities. However, the District is not included in any other governmental reporting entity and there are no component units included within the District's reporting entity.

2. Basis of Presentation, Basis of Accounting

a. Basis of Presentation

Government-wide Financial Statements: The statement of net position and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

General Fund: This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

Debt Service Fund: This fund is used to account for and report financial resources restricted, committed, or assigned to expenditure for principal and interest.

Capital Projects Fund: This fund is used to account for all financial resources restricted, committed, or assigned to expenditures for the acquisition or construction of capital assets.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

In addition, the District reports the following fund types:

Private-Purpose Trust Funds: These funds are used to report trust arrangements under which principal and income benefit a specific school or group of students which includes the scholarship funds that are received to be awarded to current and former students for post-secondary education purposes.

Agency Funds: These funds are used to report student activity funds and other resources held in a purely custodial capacity (assets equal liabilities). Agency funds typically involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments. The funds have no equity, assets are equal to liabilities, and do not include revenues and expenditures for general operations of the District and have no measurement focus.

Fiduciary funds are reported in the fiduciary fund financial statements. However, because their assets are held in a trustee or agent capacity and are therefore not available to support District programs, these funds are not included in the government-wide statements.

b. Measurement Focus, Basis of Accounting

Government-wide and Fiduciary Fund Financial Statements: These financial statements are reported using the economic resources measurement focus. They are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

3. Financial Statement Amounts

a. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the fiscal year.

Allowances for uncollectible tax receivables within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

b. Inventories and Prepaid Items

Supplies and materials are recorded as expenditures when requisitioned. Inventories of supplies on the balance sheet are stated at weighted average cost.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

c. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets or donated works of art and similar items are recorded at their acquisition value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Buildings & Improvements	10 - 50
Vehicles	7 - 10
Equipment	3 - 15

d. Deferred Outflows and Inflows of Resources

In addition to assets, the statements of financial position (the government-wide Statement of Net Position and governmental funds balance sheet) will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position and/or fund balance that applies to one or more future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statements of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to one or more future periods and so will not be recognized as an inflow of resources (revenue) until that time.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

e. Receivable and Payable Balances

The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year of year end.

f. Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net position.

g. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates.

h. Data Control Codes

Data Control Codes appear in the rows and above the columns of certain financial statements. The TEA requires the display of these codes in the financial statements filed with TEA in order to ensure accuracy in building a statewide database for policy development and funding plans.

i. Fund Balances - Governmental Funds

Fund balances of the governmental funds are classified as follows:

Nonspendable Fund Balance - represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid insurance) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

Restricted Fund Balance - represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed Fund Balance - represents amounts constrained for specific purposes internally imposed by the District through formal action of the highest level of decision making authority. Committed amounts cannot be used for any other purpose unless the Board of Trustees removes those constraints by taking the same type of formal action. Committed fund balance is reported pursuant to a resolution passed by the District's Board of Trustees.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

Assigned Fund Balance - represents amounts which the District intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the Board of Trustees or by an official or body to which the Board of Trustees delegates the authority. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the general fund convey that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the District itself. The District authorizes the Superintendent or the Superintendent's designee to assign fund balance.

Unassigned Fund Balance - represents amounts which are unconstrained in that they may be spent for any purpose. Only the general fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

The District established a minimum fund balance policy requiring at least 45 days of operating expenditures in fund balance at all times. In the event the fund balance should fall below an amount equal to 45 days of operating expenses in any year, the Board shall determine and implement measures that will increase the fund balance, if appropriate, to ensure the standard of 45 days of operating expenditures for the next school year. The District was in compliance with this policy at August 31, 2020.

j. Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

k. Fund Balance Flow Assumptions

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

4. Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31. 2020

5. Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

B. Deposits and Investments

The District's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the District's agent bank approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

Cash Deposits:

At August 31, 2020, the carrying amount of the District's deposits (cash, certificates of deposit, and interest-bearing savings accounts included in temporary investments) was \$62,561,450 and the bank balance was \$66,906,038. The District's cash deposits at August 31, 2020 were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

2. Investments:

The District is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

The Public Funds Investment Act ("Act") requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the District adhered to the requirements of the Act. Additionally, investment practices of the District were in accordance with local policies.

The Act determines the types of investments which are allowable for the District. These include, with certain restrictions, (1) obligations of the U.S. Treasury, U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) securities lending program, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, and (10) commercial paper.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

The District's investments at August 31, 2020 consisted of long-term certificates of deposit, money market savings accounts, local government investment pools, municipal bonds, and FHLB and FFCB - agency bonds. Certificates of deposits and money market savings accounts are covered by FDIC and pledged collateral by the bank and are included in the balance in Note B-1. The District's investments at August 31, 2020 are shown below.

Investment or Investment Type	<u>Maturity</u>	<u>Fair Value</u>	
Texas CLASS - LGIP	Wtd Avg = 56 days	\$ 48,908,91	8

3. Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the District was not significantly exposed to credit risk.

At August 31, 2020, the District's investments, other than those which are obligations of or guaranteed by the U. S. Government, are rated as to credit quality as follows:

Texas CLASS - LGIP	AAAm
LoneStar - LGIP	AAAm
Texas Term (TexasDAILY) - LGIP	AAAm
TD Ameritrade	
Municipal Bonds	Aa1
FHLB and FFCB -	Aaa
Agency Bonds	

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name.

At year end, the District was not exposed to custodial credit risk.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the District was exposed to interest rate risk for the investments in municipal bonds and FHLB and FFCB agency bonds described in Note B-2. The District's investment advisors used the simulation model to calculate the interest rate risk for the bonds noting that due to the short maturity of all of the bonds (less than 2 years) the interest rate risk would be minimal and the affect on the investment values would be insignificant.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

Investment Accounting Policy

The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

Public Funds Investment Pools

Public funds investment pools in Texas ("Pools") are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the "Act"), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: (1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; (2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and (3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

LoneStar - LGIP

The Lone Star Investment Pool (Lone Star) is a public funds investment pool created pursuant to the Interlocal Cooperation Act, Texas Government Code, Chapter 791, and the Public Funds Investment Act, Texas Government Code, Chapter 2256. Lone Star is administered by First Public, a subsidiary of the Texas Association of School Boards (TASB), with Standish and American Beacon Advisors managing the investment and reinvestment of Lone Star's assets. State Street Bank provides custody and valuation services to Lone Star. All of the board of trustees' eleven members are Lone Star participants by either being employees or elected officials of a participant. Lone Star has established an advisory board composed of both pool members and non-members. Lone Star is rated AAAm by Standard and Poor's. Lone Star has no limitations or restrictions on withdrawals. The District is invested in the Corporate Overnight Plus Fund of Lone Star. Lone Star has 3 different funds: Government Overnight, Corporate Overnight, and Corporate Overnight Plus. Government and Corporate Overnight maintain a net asset value of one dollar and the Corporate Overnight Plus maintains a net asset value of 50 cents. The Government Overnight and Corporate Overnight Funds value all investments at amortized cost and are operated in accordance with GASB 79. The Corporate Overnight Plus Fund values all investments at fair value and is operated in accordance with GASB 72.

TexasTERM - LGIP

The Texas Term Local Government Investment Pool (TexasTERM) is a local government investment pool organized under the authority of the Interlocal Cooperation Act, Chapter 791, Texas Government Code, and the Public Funds Investment Act, Chapter 2256, Texas Government Code. TexasTERM is administered by PFM Asset Management LLC, which also serves as the investment advisor. The reported value of the pool is the same as the fair value of the pool shares. Investment options include TexasDAILY, a money market portfolio, is rated AAAm by Standard & Poor's, and TexasTERM CD Purchase Program, a fixed rate, fixed-term investment option enabling investors to invest in FDIC insured CD's from banks throughout the United States. Texas Daily is operated in accordance with GASB 79 and uses amortized cost in the calculation of the net asset value at the conclusion of each business day. There are no limitations or restrictions on withdrawals.

Texas CLASS - LGIP

Texas CLASS is administered by a board of pool members. In accordance with FASB guidance, Texas CLASS utilitizes ASC 820 "Fair Value Measurement and Disclosure" to define fair value, establish a framework for measuring fair value, and expand disclosure requirements regarding fair value measurements. ASC 820 does not require new fair value measurements but is applied to the extent that other accounting pronouncements require or permit fair value measurements. This standard emphasizes what participants would use in pricing an asset or liability. Various input are used in determining the value of Texas Class's portfolio investments defined pursuant to this standard. All investments are categorized as Level 2 for the fair value hierarchy. Level 2 inputs are prices determined using other significant observable inputs. Observable inputs are inputs that reflect the assumptions market participants would use in pricing a security and are developed based on market data obtained from sources independent of the reporting entitity.

TD Ameritrade

The District's investments with TD Ameritrade consists of certificates of deposits, municipal bonds, and FHLB and FFCB agency bonds. The municipal bonds are catergorized as Level 2 for the fair value hierarchy. The fair value is obtained via a pricing method used by Bloomberg Professional Services whereby bonds with similar credit qualities, coupons, maturities, state locations, etc are used to obtain a value for the porfolio bonds, as many of the bonds do not trade on a regular basis.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

Fair Value Measurements

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. GASB Statement No. 72, Fair Value Measurement and Application, provides a framework for measuring fair value which establishes a three-level fair value hierarchy that describes the inputs that are used to measure the assets and liabilities.

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs are inputs- other than quoted prices included within Level 1- that are observable for an asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for an assets or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

In accordance with GASB Statement No. 79, Certain External Investment Pools and Pool Participants, the Local Government Investment Pools do not have any limitations and restrictions on withdrawals such as notice period of maximum transaction amounts. These pool do not impose any liquidity fees or redemption gates.

Investments' fair value measurements are as follows at August 31, 2020:

			Fair Value Measurement Using			Using
Investments		Fair Value	Level 1 Inputs		Level 2 Inputs	Level 3 Inputs
Texas CLASS - LGIP	\$	48,908,918		\$	48,908,918	§

Security and Monitoring Services	31,395
Data Processing Services	979,324
Community Services	5,786
	\$ 13,433,958

Note: Decreases in construction in progress include the prior period adjustment recorded by the District described in Note O.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

D. Interfund Balances and Activities

1. Due To and From Other Funds

Balances due to and due from other funds at August 31, 2020, consisted of the following:

Due To Fund	Due From Fund		Amount	Purpose
General Fund Debt Service Fund Capital Projects Fund	Special Revenue Funds General Fund General Fund Total	\$ \$	441,882 24,906 1,799,210 2,265,998	For transfer of federal receipts Short-term loan Short-term loan

All amounts due are scheduled to be repaid within one year.

E. Other Committed Fund Balances

The District's Other Committed Fund Balance at August 31, 2020 consists of the following:

Fund		
General Fund	\$ 10,573,725	State Funding Decreases
Special Revenue Fund	1,470,302	Campus Activity
Special Revenue Fund	350,584	Summer School, Scholarships, etc
·	\$ 12,394,611	• •

F. Long-Term Obligations

The District has entered into a continuing disclosure undertaking to provide Annual Reports and Material Event Notices to the State Information Depository of Texas, which is the Municipal Advisory Council. This information is required under SEC Rule 15c2-12 to enable investors to analyze the financial condition and operations of the District.

1. Long-Term Obligation Activity

Long-term obligations include debt and other long-term liabilities. Changes in long-term obligations for the year ended August 31, 2020, are as follows:

	Beginning Balance	Increases	Decreases	Ending Balance	Amounts Due Within One Year
Governmental Activities:					
General Obligation Bonds \$	306,677,165 \$	58,120,000 \$	18,092,163 \$	346,705,002 \$	16,825,000
Premium on Bond Issuance	9,273,919	3,386,918	762,919	11,897,918	
Accumulated Accretion on CAB	s 67,340		67,340		
Net Pension Liability *	25,965,786	1,214,934	1,714,676	25,466,044	
Net OPEB Liability *	30,382,092		1,118,796	29,263,296	
Total Governmental Activities \$	372,366,302 \$	62,721,852 \$	21,755,894 \$	413,332,260 \$	16,825,000

^{*} Other long-term liabilities

The funds typically used to liquidate other long-term liabilities in the past are as follows:

Liability	Activity Type	Fund
Net Pension Liability *	Governmental	General
Net OPEB Liability *	Governmental	General

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31. 2020

The District has covenanted to make mandatory deposits into the Cumulative Sinking Fund Deposit Account held by the Paying Agent/Registrar for the Qualified School Construction Bonds, Series 2009. The Sinking Fund of the Qualified School Construction Bonds, Series 2009 calls for annual payments ranging from \$525,000 to \$550,000 from 2010 through 2026 The 2020 deposits were made by the District and are accounted for in Long-Term Investments and Other Restricted Fund Balance as required by the TEA Financial Accountability System of Resource Guide (FASRG).

For the year ended August 31, 2020 the District did not have any direct borrowings or direct placements as defined by GASB No. 88. Additionally, the District did not have any lines of credit, assets or which are pledged as collateral for debt, or debt with terms specified in debt agreements related to significant events of default with finance-related consequences, termination events with finance-related consequences, or subjective acceleration clauses as of August 31, 2020.

3. Current Refunding of Debt

As a result of the current refunding of principal maturities of the Unlimited Tax Refunding Bonds, Series 2011 by the issuance of the Unlimited Tax Building and Refunding Bonds, Series 2019A, the District decreased its total debt service requirements by \$309,982, which resulted in a net economic gain (difference between the present value of the debt service payments on the old and new debt) of \$258,962.

G. Commitments Under Noncapitalized Leases

Commitments under operating (noncapitalized) lease agreements for facilities and equipment provide for minimum future rental payments as of August 31, 2020, as follows:

Year Ending August 31		
2021	\$	111,112
2022		102,266
2023		21,593
2024		2,808
Total Minimum Rentals	\$	237,779
		
Rental Expenditures in 2020	\$	151,175

H. Risk Management

The District is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During fiscal year 2020, the District carried insurance through various plans described below. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

Property Casualty Program

During fiscal year 2020, the District participated in the Texas Association of School Boards Risk Management Fund (the Fund) with coverage in Auto Liability, Auto Physical Damage, School Liability, and Privacy and Information Security. The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The Fund purchases stop-loss coverage for protection against catastrophic and larger than anticipated claims for its Auto, Liability and Property programs. The terms and limits of the stop-loss program vary by line coverage. The Fund uses the services of an independent actuary to determine the adequacy of reserves and fully funds those reserves. For the year ended August 31, 2020, the Fund anticipates Carroll ISD has no additional liability beyond the contractual obligations for payment of contributions.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2019 are available on the TASB Risk Managment Fund website and have been filed with the Texas Department of Insurance in Austin.

During the year ended August 31, 2020, Carroll ISD met its statutory property casualty obligations through participation in the Property Casualty Alliance of Texas (the Fund). The Fund was created pursuant to the provisions of the Interlocal Cooperation Act, Chapter 791, Title I of the Texas Government Code. All districts participating in the Fund execute Interlocal Agreement that define the responsibilities of the parties. The Fund provides property and casualty coverage and services to its members.

The Fund and its members are protected against higher than expected claims costs through reinsurance contracts for claims in excess of the Fund's self-insured retentions. The Fund uses the services of an independent actuary to help determine the reserve adequacy. As of August 31, 2020, the Fund carries a total of \$11,036,042 in current loss reserves, including \$3,516,443 for claims incurred but not yet reported. Losses and reserves are based on estimates, and could be more or less than originally estimated.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on the last day of February. The Fund's audited financial statements are available for inspection at the Fund's administrative offices.

Workers' Compensation

During the year ended August 31, 2020, Carroll ISD met its statutory workers' compensation obligations through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Workers Compensation Program is authorized by Chapter 504, Texas Labor Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties. The Fund provides statutory workers' compensation benefits to its members' injured employees.

Carroll ISD participates in the Fund's reimbursable aggregate deductible program. As such, the member is responsible for a certain amount of claims liability as outlined on the member's Contribution and Coverage Summary document. After the member's deductible has been met, the Fund is responsible for additional claims liability.

The Fund and its members are protected against higher than expected claims costs through the purchase of stop loss coverage for any claim in excess of the Fund's self-insured retention of \$2 million. The Fund uses the services of an independent actuary to determine reserve adequacy and fully funds those reserves. As of August 31, 2019, the Fund carries a discounted reserve of \$45,439,534 for future development on reported claims and claims that have been incurred but not yet reported. For the year ended August 31, 2020, the Fund anticipates no additional liability to its members beyond their contractual obligations for payment of contributions and reimbursable aggregate deductibles.

The Fund engages the services of independent auditors to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2019, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

Pension Plan

1. Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67, and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

2. Pension Plan Fiduciary Net Position

Detail information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at https://www.trs.texas.gov/TRS%20Documents/cafr.pdf, selecting About TRS then Publications then Financial Reports by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698.

3. Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3% (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (1.) above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

In May, 2019, the 86th Texas Legislature approved the TRS Pension Reform Bill (Senate Bill 12) that provides for gradual contribution increases from the state, participating employers and active employees to make the pension fund actuarially sound. This action causing the pension fund to be actuarially sound, allowed the legislature to approve funding for a 13th check in September 2019. All eligible members retired as of December 31, 2018 received an extra annuity check in either the matching amount of their monthly annuity or \$2,000, whichever was less.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

4. Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

Contribution Rates

	2019	2020
Member	 7.7%	7.7%
Non-Employer Contributing Entity (State)	6.8%	7.5%
Employers	6.8%	7.5%
District's 2020 Employer Contributions	\$ 1,814,304	
District's 2020 Member Contributions	\$ 4,537,403	
2019 NECE On-Behalf Contributions (State)	\$ 2,679,247	

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- --- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- --- During a new member's first 90 days of employment.
- --- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- --- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.
- --- When the employing district is a public or charter school, the employer shall contribute 1.5% of covered payroll to the pension fund beginning in fiscal year 2020. This contribution rate called the Public Education Employer Contribution will replace the Non(OASDI) surcharge that was in effect in fiscal year 2019.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- --- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- --- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees. This surcharge was in effect through fiscal year 2019 and was replaced with the Public Education employer contribution explained about.

5. Actuarial Assumptions

The total pension liability in the August 31, 2018 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date August 31, 2018 rolled forward to August 31, 2019

Actuarial Cost Method Individual Entry Age Normal

Asset Valuation Method Market Value

Single Discount Rate 7.25%
Long-term expected Investment Rate of Return 7.25%
Municipal Bond Rate as of August 2019 2.63%
Inflation 2.30%

Salary Increases including inflation 3.05% to 9.05%

Benefit Changes during the year None
Ad hoc post-employment benefit changes None

The actuarial methods and assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2018. For a full description of these assumptions please see the actuarial valuation report dated November 9, 2018.

6. Discount Rate

A single discount rate of 7.25% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.25%. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50% of payroll in fiscal year 2020 gradually increasing to 9.55% of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

The long-term rate of return on pension plan investments is 7.25%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2019 are summarized below:

Acces Olece	FY 2019 Target	New Target	Long-Term Expected Geometric Real Rate of
Asset Class	Allocation *	Allocation **	Return ***
Global Equity USA	18.0%	18.0%	6.4%
Non-U.S. Developed	13.0%	13.0%	6.3%
Emerging Markets	9.0%	9.0%	7.3%
Directional Hedge Funds	4.0%	-	
Private Equity	13.0%	14.0%	8.4%
Stable Value			
U.S. Treasuries ****	11.0%	16.0%	3.1%
Stable Value Hedge Funds	4.0%	5.0%	4.5%
Absolute Return	0.0%	0.0%	0.0%
Real Return			
Global Inflation Linked Bonds ****	3.0%	-	-
Real Estate	14.0%	15.0%	8.5%
Energy, Natural Resources & Infrastructure	5.0%	6.0%	7.3%
Commodities	0.0%	0.0%	0.0%
Risk Parity			
Risk Parity	5.0%	8.0%	5.8%/6.5%*****
Leverage			
Cash	1.0%	2.0%	2.5%
Asset Allocation Leverage	<u> </u>	-6.0%	2.7%
Expected Return	100.0%	100.0%	7.23%

- * Target allocations are based on the Strategic Asset Allocation as of FY2019
- ** New allocations are based on the Strategic Asset Allocation to be implemented FY2020
- *** 10-Year annualized geometric nominal returns include the real rate of return and inflation of 2.1%
- **** New Target Allocation groups Government Bonds within the stable value allocation. This includes global sovereign nominal and inflation-linked bonds
- ***** 5.8% (6.5%) return expectation corresponds to Risk Parity with a 10% (12%) target volatility

7. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (7.25%) in measuring the Net Pension Liability.

	1% Decrease in Discount Rate 6.25%	Discount Rate 7.25%	1% Increase in Discount Rate 8.25%
District's proportionate share of the net pension liability:	\$ 39,145,007	\$25,466,044	\$ 14,383,441

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31. 2020

8. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2020, the District reported a liability of \$25,466,044 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability \$ 25,466,044

State's proportionate share that is associated with District 39,793,357

Total \$__65,259,401

The net pension liability was measured as of August 31, 2018 and rolled forward to August 31, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2018 through August 31, 2019.

At August 31, 2019 the employer's proportion of the collective net pension liability was 0.0489891% which was an increase of 0.001815% from its proportion measured as of August 31, 2018.

Changes Since the Prior Actuarial Valuation -

- --- The single discount rate as of August 31, 2018 was a blended rate of 6.907% and that has changed to the long-term rate of return of 7.25% as of August 31, 2019.
- --- With the enactment of SB 3 by the 2019 Texas Legislature, an assumption has been made about how this would impact future salaries. It is assumed that eligible active members will each receive a \$2,700 increase in fiscal year 2020. This is in addition to the salary increase expected in the actuarial assumptions.
- --- The Texas Legislature approved funding for a 13th check. All eligible members retired as of December 31, 2018 will receive an extra annuity check in September 2019 in either the matching amount of their monthly annuity payment or \$2,000, whichever is less.

For the year ended August 31, 2020, the District recognized pension expense of \$6,250,976 and revenue of \$6,250,976 for support provided by the State.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

At August 31, 2020, the District reported its proportionate share of the TRS' deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	_	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$	106,980 \$	884,221
Changes in actuarial assumptions		7,900,817	3,264,991
Difference between projected and actual investment earnings		255,708	
Changes in proportion and difference between the District's contributions and the proportionate share of contributions		2,933,004	
Contributions paid to TRS subsequent to the measurement date	_	1,814,304	
Total	\$_	13,010,813 \$	4,149,212

The \$1,814,304, reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date, will be recognized as a reduction to pension liability in the year ended August, 31, 2021.

The net amounts of the District's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

		Pension
Year Ended		Expense
August 31		Amount
2021	- \$-	1,830,880
2022	\$	1,516,700
2023	\$	1,716,312
2024	\$	1,583,369
2025	\$	595,437
Thereafter	\$	(195,402)

J. Defined Other Post-Employment Benefit Plans

1. Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

2. OPEB Plan Fiduciary Net Position

Detail information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.state.tx.us/about/documents/cafr.pdf, selecting About TRS then Publications then Financial Reports or by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

3. Benefits Provided

TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table.

TRS-Care Monthly Premium Rates				
Medicare			Non-Medicar	
Retiree or Surviving Spouse	\$	135	\$	200
Retiree and Spouse		529		689
Retiree, Surviving Spouse,				
and Children		468		408
Retiree and Family		1,020		999

4. Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.75% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

Contribution Rates				
	2019	2020		
Active Employee	0.65%	0.65%		
Non-Employer Contributing Entity (State)	1.25%	1.25%		
Employers	0.75%	0.75%		
Federal/private Funding remitted by Employers	1.25%	1.25%		

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

District's 2020 Employer Contributions	\$ 456,491
District's 2020 Member Contributions	\$ 383,028
2019 NECE On-Behalf Contributions (State)	\$ 583,522

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When hiring a TRS retiree, employers are required to pay TRS-Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$73.6 million in fiscal year 2019.

5. Actuarial Assumptions

The total OPEB liability in the August 31, 2018 actuarial valuation was rolled forward to August 31, 2019. The actuarial valuation was determined using the following actuarial assumptions:

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuations performed for the pension plan, except that the OPEB valuation is more complex. All of the demographic assumptions, including rates of retirement, termination, and disability, and most of the economic assumptions, including general inflation and salary increases, used in the OPEB valuation were identical to those used in the respective TRS pension valuation. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

The following assumptions and other inputs used for members of TRS-Care are identical to the assumptions used in the August 31, 2018 TRS pension actuarial valuation that was rolled forward to August 31, 2019:

Rates of Mortality

Rates of Retirement

Rates of Termination

Rates of Disability Incidence

General Inflation
Wage Inflation

Expected Payroll Growth

Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2018 rolled forward to August 31, 2019
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	2.63% as of August 31, 2019
Aging Factors	Based on plan specific experience
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Projected Salary Increases	3.05% to 9.05%, including inflation
Healthcare Trend Rates	7.50% to 10.25%
Election Rates	Normal Retirement: 65% participation prior to age 65 and 50% after age 65.*
Ad Hoc Post-Employment Benefit Changes	None

^{* 25%} of pre-65 retirees are assumed to discontinue coverage at age 65.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31. 2020

Discount Rate

A single discount rate of 2.63% was used to measure the total OPEB liability. There was an increase of 1.06% in the discount rate since the previous year. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

7. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used in measuring the net OPEB liability.

· · · · · · · · · · · · · · · · · · ·	1% Decrease in	Current Single	1% Increase in
	Discount Rate	Discount Rate	Discount Rate
	(1.63%)	(2.63%)	(3.63%)
District's proportionate share of net OPEB liability	\$ 35,330,188	\$ 29,263,296	\$ 24,517,161

8. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At August 31, 2020, the District reported a liability of \$29,263,296 for its proportionate share of the TRS's Net OPEB liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective net OPEB liability	\$	29,263,296
State's proportionate share that is associated with the District	_	38,884,375
Total	\$_	68,147,671

The Net OPEB liability was measured as of August 31, 2018 and rolled forward to August 31, 2019 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The District's proportion of the Net OPEB Liability was based on the District's contributions to OPEB relative to the contributions of all employers to the plan for the period September 1, 2018 through August 31, 2019.

At August 31, 2019 the District's proportion of the collective net OPEB liability was 0.0618789% which was an increase of 0.0010306% from its proportion measured as of August 31, 2018.

The following schedule shows the impact of the Net OPEB Liability if a healthcare trend rate that is 1% less than and 1% greater than the assumed 8.5% rate is used.

	1%	Decrease in	Current Single	1% Increase in
	Hea	Ithcare Trend	Healthcare Trend	Healthcare Trend
		Rate	Rate	Rate
District's proportionate share of net OPEB liability	\$	23,871,971	\$ 29,263,296	\$ 36,485,197

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

9. Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB Liability (TOL) since the prior measurement period:

- --- The discount rate was changed from 3.69% as of August 31, 2018 to 2.63% as of August 31, 2019. This change increased the TOL.
- --- The health care trend rates were reset to better reflect the plan's anticipated experience. This change increased the TOL.
- --- The participation rate for pre-65 retirees was lowered from 70% to 65%. The participation rate for post-65 retirees was lowered from 75% to 50%. 25% of pre-65 retirees are assumed to discontinue their coverage at age 65. There was no lapse assumption in the prior valuation. These changes decreased the TOL.
- --- The percentage of retirees who are assumed to have two-person coverage was lowered from 20% to 15%. In addition, the participation assumption for the surviving spouses of employees that die while actively employed was lowered from 20% to 10%. These changes decreased the TOL.

In this valuation the impact of the Cadillac Tax that is returning in fiscal year 2023, has been calculated as a portion of the trend assumption. Assumptions and methods used to determine the impact of the Cadillac Tax include:

- --- 2018 threshold of \$850/\$2,292 were indexed annually by 2.30%.
- --- Premium data submitted was not adjusted for permissible exclusions to the Cadillac Tax.
- --- There were no special adjustments to the dollar limit other than those permissible for non-Medicare retirees over 55.

Results indicate that the value of the excise tax would be reasonably represented by a 25 basis-point addition to the long-term trend rate assumption.

Change of Benefit Terms Since the Prior Measurement Date - There were no changes in benefit terms since the prior measurement date.

For the year ended August 31, 2020, the District recognized OPEB expense of \$1,024,832 and revenue of \$1,024,832 for support provided by the State.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

At August 31, 2020, the District reported its proportionate share of the TRS' deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

		Deferred Outflows of Resources	Deferred Inflows of Resources	
Differences between expected and actual economic experience	\$	1,435,613 \$	4,788,628	
Changes in actuarial assumptions		1,625,348	7,871,108	
Differences between projected and actual investment earnings		3,157		
Changes in proportion and difference between the District's contributions and the proportionate share of contributions		2,313,784		
Contributions paid to TRS subsequent to the measurement date		456,491		
Total	\$_	5,834,393 \$	12,659,736	

The \$456,491, reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended August 31, 2021.

The net amounts of the District's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended August 31	OPEB Expense Amount			
2021	\$ (1,295,937)			
2022	\$ (1,295,937)			
2023	\$ (1,296,959)			
2024	\$ (1,297,544)			
2025	\$ (1,297,384)			
Thereafter	\$ (798,073)			

10. Medicare Part D Subsidies

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal year ended August 31, 2020, the subsidy payment received by TRS-Care on behalf of the District was \$252,014.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

K. Employee Health Care Coverage

During the year ended August 31, 2020, employees of the District were covered by a health insurance plan (the Plan). The District paid premiums of \$300 per month per employee to the Plan. Employees, at their option, authorized payroll withholdings to pay premiums for dependents. All premiums were paid to a third party administrator, acting on behalf of the licensed insurer. The Plan was authorized by Section 21.922, Texas Education Code and was documented by contractual agreement.

The contract between the District and the third party administrator is renewable annually, and terms of coverage and premium costs are included in the contractual provisions.

Latest financial statements for the Company are available for their year end and have been filed with the Texas State Board of Insurance, Austin, Texas, and are public records.

L. Commitments and Contingencies

Contingencies

The District participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectibility of any related receivable may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

As of August 31, 2020, the District had multiple construction commitments across various projects with remaining costs to complete totaling \$22,897,307, which will be funded from the Capital Projects Fund. The District was not obligated at August 31, 2020 for the construction commitments.

Vendor	Amount	Vendor	Amount	
Able Mechanical	\$ 4,339	HM&MF Construction	\$	10,681,573

2. Litigation

During fiscal year 2020, the District was involved in litigation with Northwest ISD regarding the establishment of the boundary line between the two districts. An unfavorable judgement was initially obtained and the case is currently in the Court of Appeals. The possible range of loss cannot be made at this time, and therefore, a liability has not been recorded.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2020

M. Shared Services Arrangements

Shared Services Arrangement - Membership

The District participates in a shared services arrangement ("SSA") for deaf education with the following school districts:

Member Districts

Birdville ISD
Carroll ISD
Eagle Mountain-Saginaw ISD
Grapevine-Colleyville ISD
Hurst - Euless - Bedford ISD
International Leadership Texas Charter
Keller ISD
Westlake Academy

The District does not account for revenues or expenditures in this program and does not disclose them in these financial statements. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent, Birdville ISD, nor does the District have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant financial resources nor fiscal exigencies that would give rise to a future additional benefit or burden to the District. The fiscal agent manager is responsible for all financial activities of the SSA.

N. Subsequent Events

The District evaluated subsequent events through December 9, 2020, the date the financial statements were available to be issued and the following subsequent events were noted.

COVID-19 Pandemic

In March 2020, Governor Abbott declared a state-wide disaster proclamation in response to the spread of a deadly new virus. The weeks following the declaration, precautionary measures to slow the spread of the virus were ordered. These measures included closing schools, canceling public events, limiting gathering size, and requiring people to stay home unless leaving for an essential function. In March 2020, the Governor closed all public and private K-12 school buildings throughout the remainder of the 2019-2020 school year. The school district, however, continued to operate; educating students using continuous learning models.

The District reopened for the 2020-2021 school year. The full extent of the financial impact on the school district is unknown at this time.

O. Prior Period Adjustment

The District recorded a prior period adjustment to reclassify items reported in the prior fiscal year as additions to construction in progress to non-capital expenses. In reviewing construction in progress in fiscal year 2020, the District determined these items did not meet the requirements to be considered capital asset additions. This decreased beginning net position of the governmental activities by \$1,741,650. The effect on the prior year's statement of Net Position was an overstatement of \$1,741,650. There was no effect to the beginning fund balance on the Governmental Funds Balance Sheet.

Required Supplementary Information
Required supplementary information includes financial information and disclosures required by the Governmenta Accounting Standards Board but not considered a part of the basic financial statements.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED AUGUST 31, 2020

Budget

The official budget was prepared for adoption for all Governmental Fund Types legally required to adopt a budget (General Funds and Debt Service Funds). The budget was prepared in accordance with accounting practices generally accepted in the United States of America. The following procedures are followed in establishing the budgetary data:

- a. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeding fiscal year. The operating budget includes proposed expenditures and the means of financing them.
- b. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
- c. Prior to the beginning of the fiscal year, the budget is legally enacted through passage of a resolution by the board.

Once a budget is approved, it can be amended at function and fund level only by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings.

Each amendment must have Board approval. Such amendments are made before the fact, are reflected in the official minutes of the Board and are not made after fiscal year end as required by law.

Each amendment is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end.

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at that time are to be either cancelled or appropriately provided for in the subsequent year's budget. There were no end-of-year outstanding encumbrances that were provided for in the subsequent year's budget.

Defined Benefit Pension Plan and Defined Benefit OPEB Plan

Changes of benefit terms

Any changes in benefit terms that affected the measurement of the net pension liability during the measurement period are described in the notes to the financial statements (Note I).

Any changes in benefit terms that affected the measurement of the net OPEB liability during the measurement period are described in the notes to the financial statements (Note J).

Changes of assumptions

Changes of assumptions that affected the measurement of the net pension liability during the measurement period are described in the notes to the financial statements (Note I).

Changes of assumptions that affected the measurement of the net OPEB liability during the measurement period are described in the notes to the financial statements (Note J).

Combining Statements and Budget Comparisons as Supplementary Information
This supplementary information includes financial statements and schedules not required by the Governmental Accounting Standards Board, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

Board of Trustees Carroll Independent School District 2400 North Carroll Avenue Southlake, Texas 76092

Members of the Board of Trustees:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Carroll Independent School District, as of and for the year ended August 31, 2020, and the related notes to the financial statements, which collectively comprise Carroll Independent School District's basic financial statements, and have issued our report thereon dated December 9, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Carroll Independent School District's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Carroll Independent School District's internal control. Accordingly, we do not express an opinion on the affectiveness of the Carroll Independent School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Carroll Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters we reported to management of Carroll Independent School District in a separate letter dated December 9, 2020.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

Inn Borrett Williams

Independent Auditor's Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

Board of Trustees Carroll Independent School District 2400 North Carroll Avenue Southlake, Texas 76092

Members of the Board of Trustees:

Report on Compliance for Each Major Federal Program

We have audited the Carroll Independent School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on Carroll Independent School District's major federal program for the year ended August 31, 2020. Carroll Independent School District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Carroll Independent School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Carroll Independent School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Carroll Independent School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Carroll Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended August 31, 2020.

Report on Internal Control Over Compliance

Management of the Carroll Independent School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Carroll Independent School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Carroll Independent School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we considered to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

Small Clarett Williams

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED AUGUST 31, 2020

Basis of Presentation

The accompanying schedule of expenditures of federal awards ("the Schedule") includes the federal grant activity of Carroll Independent School District. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards ("Uniform Guidance"). Therefore, some amounts may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. These expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule, if any, represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

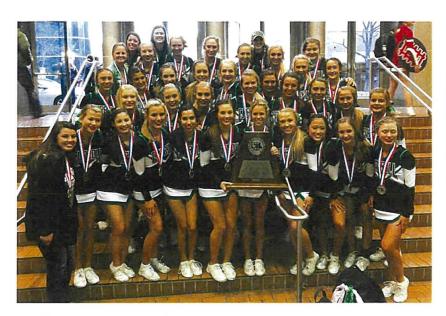

Carroll Independent School District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

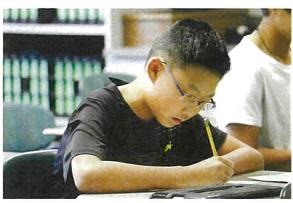

SCHEDULE OF REQUIRED RESPONSES TO SELECTED SCHOOL FIRST INDICATORS AS OF AUGUST 31, 2020

Data Control Codes		-	20000000
Codes	-		Responses
SF1	Was there an unmodified opinion in the Annual Financial Report on the financial statements as a whole?		Yes
SF2	Were there any disclosures in the Annual Financial Report and/or other sources of information concerning nonpayment of any terms of any debt agreement at fiscal year-end?		No
SF3	Did the school district make timely payments to the Teacher Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other government agencies? (If the school district was issued a warrant hold and the warrant hold was not cleared within 30 days from the date the warranty hold was issued, the school district is considered to not have made timely payments.)		Yes
	Payments to the TRS and TWC are considered timely if a warrant hold that was issued in connection to the untimely payment was cleared within 30 daysfrom the date the warrant hold was issued.		
	Payments to the IRS are considered timely if a penalty or delinquent payment notice was cleared within 30 days from the date the notice was issued.		
SF4	Was the school district issued a warrant hold? Even if the issue surrounding the initial warrant hold was resolved and cleared within 30 days, the school district is considered to have been issued a warrant hold.		No
SF5	Did the Annual Financial Report disclose any instances of material weaknesses in internal controls over financial reporting and compliance for local, state or federal funds?		No
SF6	Was there any disclosure in the Annual Financial Report of material noncompliance for grants, contracts and laws related to local, state, or federal funds?		No
SF7	Did the school district post the required financial information on its website in accordance with Government Code, Local Government code, Texas Education Code, Texas Administrative Code and other statues, laws and rules that were in effect at the school district's fiscal year-end?		Yes
SF8	Did the school board members discuss the school district's property values at a board meeting within 120 days before the school district adopted its budget?		Yes
SF9	Total accumulated accretion on CABs included in government-wide financial statements at fiscal year-end	\$	

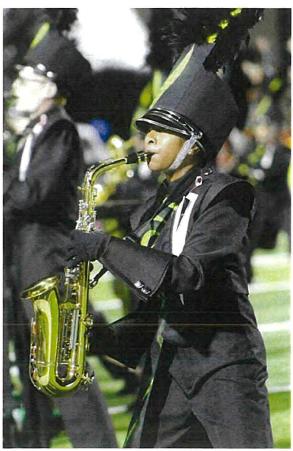

STATISTICAL SECTION

STATISTICAL SECTION

This part of the Carroll Independent School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the factors affecting the District's ability to generate its property and sales taxes.

Debt Capacity

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand how the District's financial activities take place and to help make comparisons over time and with other governments.

Operating Information

These schedules contain information about the District's operations and resources to help the reader understand how the District's financial information relates to the services the District provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

⁽¹⁾ A new Carroll Middle School was opened in 2011. The previous Carroll Middle School is now the District's Administration Building.

Source: District Records.

⁽²⁾ Walnut Grove Elementary was opened in 2011. Students previously attended Durham Elementary, which was located within Durham Intermediate School.

⁽³⁾ No longer used as a school. Rented to Southlake Baptist Church and Gateway Church.
